

1. Power up the device (Plug in to OBD port on car)
2. Search on Mobile telephone Wi-Fi for the device (Lotus Diagnostics)
3. Connect Wi-Fi to device
4. Enter password ('password' is the password)
5. Go to web browser and type 10.1.1.1, then search, some telephones may ask you to confirm you have no internet access, click confirm/yes etc
6. Add link to your home screen
7. Each time you use the device you will need to connect to it via Wi-Fi, then click the home screen icon you created earlier
8. Sometimes you may need to be patient when connecting or press the reload screen button to connect
